

# Southside Denny brings his new band to Michiana

*Regional South Bend guitar legend Southside Denny has a new band, and he's bringing it back home for a few area shows this July.*

The new band consists of Denny in his customary role as guitarist/singer/songwriter. But—here's the twist—he's accompanied by his 16-year-old daughter Lorrie on Bass and vocals and his 12-year-old son Philip on the drums.

On March 29th, 2012 the band released their first disc together, appropriately titled "The Snyders." It's available online at [www.the3snyders.com](http://www.the3snyders.com). While in Michiana the band will be performing music from the new disc and from Denny's previous eight albums at several concerts between July 19 and 28, 2012.

Denny says that putting to-

Denny's most recent disc ("Full Circle," 2009), singing with him on two selections. In the summer of 2011 he added both Lorrie and
